DETAILED ACTION

1
2 1. Receipt of the amendment filed April 21, 2003 amending claims 1-6 and adding claims
3 7 and 8 is acknowledged. Claims 1-8 are pending in the application and are presented to be
4 examined upon their merits.
5
6

7 ***Response to Arguments***
8

9 2. Applicant's arguments with respect to claims 1-6 have been considered but are moot in
10 view of the new ground(s) of rejection.
11
12

13 ***Claim Rejections - 35 USC § 112***
14

15 3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

16 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming
17 the subject matter which the applicant regards as his invention.
18

19 4. Claims 4-6 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being
20 indefinite for failing to particularly point out and distinctly claim the subject matter which
21 applicant regards as the invention. It is unclear whether claims 4-6 and 8 are apparatus or
22 method claims. Applicant uses the word "system" in the claims. The use of this word is the

Art Unit: 3624

1 aforementioned claims is ambiguous because its definition can connote an apparatus and/or a
2 method. The distinction of whether or not claims 4-6 and 8 apply towards an apparatus or
3 method is further confused by the fact that the applicant has set forth limitations that have both
4 elements. For examination purposes claims 4-6 and 8 will be considered method claims.

7
8 *Claim Rejections - 35 USC § 102*

9
10 5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form
11 the basis for the rejections under this section made in this Office action:

12 A person shall be entitled to a patent unless -

13 (e) the invention was described in-

14 (1) an application for patent, published under section 122(b), by another filed in the United States before
15 the invention by the applicant for patent, except that an international application filed under the treaty
16 defined in section 351(a) shall have the effect under this subsection of a national application published
17 under section 122(b) only if the international application designating the United States was published
18 under Article 21(2)(a) of such treaty in the English language; or

19 (2) a patent granted on an application for patent by another filed in the United States before the invention
20 by the applicant for patent, except that a patent shall not be deemed filed in the United States for the
21 purposes of this subsection based on the filing of an international application filed under the treaty defined
22 in section 351(a).

23
24 6. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by O'Shaughnessy
